AI ASSISTED CODING
ASSIGNMENT NO:14.2

Name: Mohammed inayath

Ht.no:2303A51432 bt.no:21

Task Description 1 – (Landing Page Design)

- Create a simple landing page for a product or service. Include a header, hero section, and footer.

Requirements:

- Use HTML and CSS to structure the page.
- Use AI to suggest layout alignment and typography.
- Ensure the page is responsive across devices.

Code screenshot:

```html
<!DOCTYPE html>
<html>
<head>
<meta name="viewport" content="width=device-width, initial-scale=1.0">
<title>TechWave</title>

<style>
body{
    margin:0;
    font-family:Verdana;
}

header{
    background:#222;
    color:white;
    padding:15px 30px;
    display:flex;
    justify-content:space-between;
}

nav a{
    color:white;
    margin-left:20px;
    text-decoration:none;
}

.hero{
    height:80vh;
    background:linear-gradient(120deg,#4facfe,#00f2fe);
    display:flex;
    flex-direction:column;
    justify-content:center;
    align-items:center;
    color:white;
}

.hero h1{
    font-size:42px;
}

.hero button{
    padding:10px 20px;
    border:none;
    border-radius:6px;
    cursor:pointer;
}

footer{
    background:#111;
    color:white;
    text-align:center;
    padding:12px;
}

@media(max-width:768px){
header{
flex-direction:column;
align-items:center;
}
}
</style>
</head>

<body>

<header>
<h2>TechWave</h2>
<nav>
<a href="#">Home</a>
<a href="#">Services</a>
<a href="#">Contact</a>
</nav>
</header>

<section class="hero">
<h1>Future Smart Technology</h1>
<p>Reliable • Secure • Powerful</p>
<button>Explore</button>
</section>

<footer>
<p>© 2026 TechWave</p>
</footer>

</body>
</html>
```

Output screenshot:

Code screenshot:

```html
<!DOCTYPE html>
<html>
<head>
<title>User Feedback</title>

<style>
body{
font-family:Arial;
background: #eaeaea;
display:flex;
justify-content:center;
align-items:center;
height:100vh;
}

form{
background: white;
padding:25px;
border-radius:8px;
width:320px;
}

input,select,textarea{
width:100%;
margin:8px 0;
padding:8px;
}

button{
width:100%;
padding:10px;
background: #28a745;
color: white;
border:none;
cursor:pointer;
}

#result{
text-align:center;
margin-top:10px;
font-weight:bold;
}
</style>
</head>

<body>

<form onsubmit="return checkForm()">
```

```html
<h3>Feedback</h3>

<input type="text" id="name" placeholder="Username">

<select id="rate">
<option value="">Rating</option>
<option>⭐</option>
<option>⭐⭐</option>
<option>⭐⭐⭐</option>
<option>⭐⭐⭐⭐</option>
<option>⭐⭐⭐⭐⭐</option>
</select>

<textarea id="comment" placeholder="Write comment"></textarea>

<button type="submit">Send</button>

<div id="result"></div>

</form>

<script>

function checkForm(){

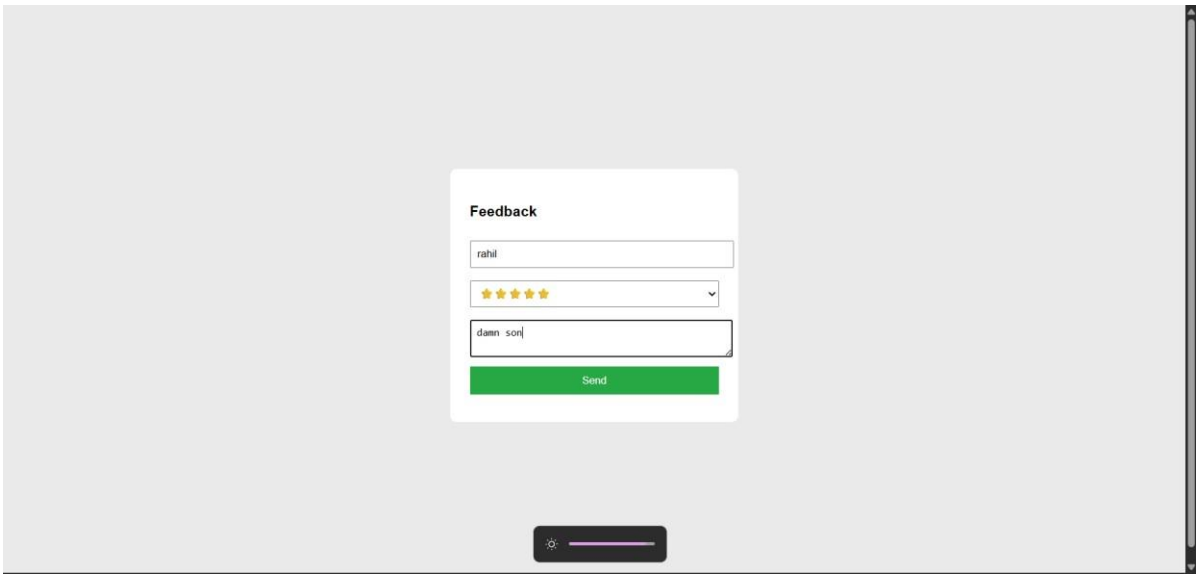
let user=document.getElementById("name").value
let rate=document.getElementById("rate").value
let comment=document.getElementById("comment").value
let result=document.getElementById("result")

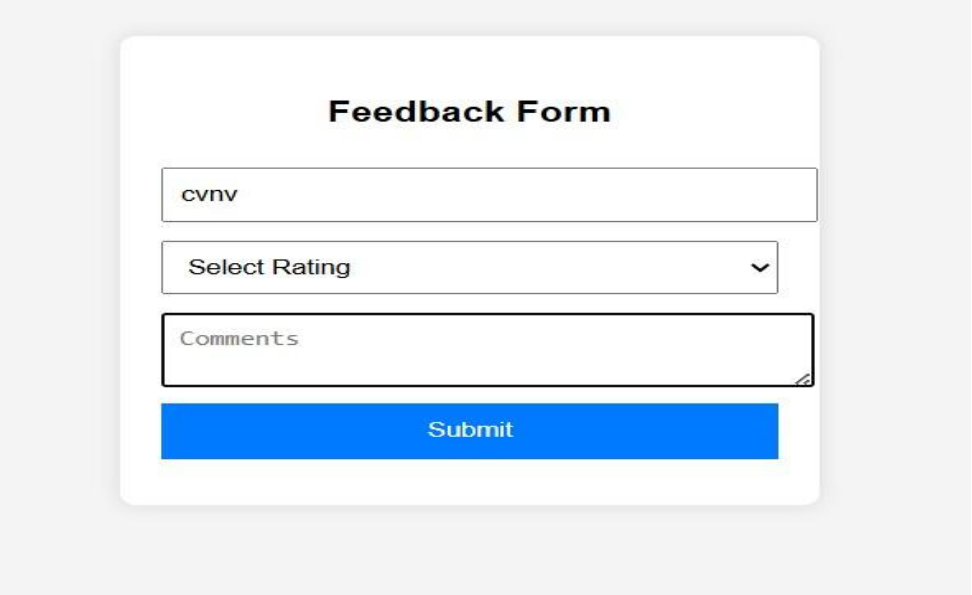
if(user=="" || rate=="" || comment==""){
result.innerHTML="❌ Fill all fields"
result.style.color="red"
return false
}

result.innerHTML="✅ Feedback received!"
result.style.color="green"
return false
}

</script>

</body>
</html>
```





Task Description - 4 (Image Gallery with JavaScript)

• Task: Display a small image gallery on a web page.

Requirements:

• Use JavaScript to dynamically load images.

• Add next/previous navigation buttons.

• Use AI to optimize layout responsiveness.

```html
<!DOCTYPE html>
<html>
<head>
<title>Photo Gallery</title>

<style>
body{
text-align:center;
font-family:Arial;
}

img{
width:450px;
height:260px;
border-radius:10px;
}

button{
padding:8px 15px;
margin:10px;
cursor:pointer;
}
</style>
</head>

<body>

<h2>Simple Gallery</h2>

<img id="photo">

<br>

<button onclick="previous()">Previous</button>
<button onclick="next()">Next</button>

<script>

let photos=[
"https://picsum.photos/450/260?1",
"https://picsum.photos/450/260?2",
"https://picsum.photos/450/260?3"
]

let index=0

document.getElementById("photo").src=photos[index]

function next(){
index=(index+1)%photos.length
document.getElementById("photo").src=photos[index]
}

function previous(){
index=(index-1+photos.length)%photos.length
document.getElementById("photo").src=photos[index]
}

</script>

</body>
</html>
```

Task Description - 5: (Notification Banner)

body{
font-family:Arial;
}

#notice{
background: #ffcc00;
padding:12px;
text-align:center;
position:fixed;
top:0;
width:100%;
transition:0.3s;
}

.hide{
transform:translateY(-100%);
}

button{
margin-left:10px;
}
</style>

</head>

<body>

<div id="notice">
⚡ Welcome! This is a notification message.
<button onclick="closeBanner()">Close</button>
</div>

<br><br><br>

<center>
<button onclick="openBanner()">Show Notification</button>
</center>

<script>

function closeBanner(){
document.getElementById("notice").classlist.add("hide")
}

function openBanner(){
document.getElementById("notice").classlist.remove("hide")
}

</script>

</body>
</html>
```
